

KEY FEATURES

- Eight TTL/CMOS input channels
- Eight 0 to 10 volt input channels
- Single-width, half-height* (mid-height and full-height available)
 - *Patent-pending design allows standard front panel I/O connectivity in a half-height AMC compliant form factor
- Programmable debounce times are software controlled on a channel-by-channel basis
- Change-Of-State (COS) selections:
 - Disabled
 - Rising edge, low-to-high transition
 - Falling edge, high-to-low transition
 - Level sensitive
- Input voltage from 10V to 38V with 45V surge @ 500ms
- AMC.1 compliant
- IPMI 2.0 compliant
- RoHS compliant
- OS support for:
 - Linux
 - Windows
 - Solaris
 - VxWorks

Designed to solve the real world I/O problems of Military, Industrial and Telcom applications. The AMC090 is a 16-Channel Optically Isolated Input AdvancedMC™ (AMC) module. Eight channels are factory configured for TTL/CMOS inputs and the other eight channels are configured for 0-10V source inputs (other voltage ranges are available, contact Sales for more information).

Designed for maximum flexibility in mind, the AMC090 features an FPGA that provides a number of software programmable functions which include: programmable debounce on a channel-by-channel basis (increment of 1ms resolution), programmable Change-of-State (COS) interrupts (rising edge, falling edge or level sensitive), and multi-channel sensitive input masked interrupts.

VadaTech can modify this product to meet special customer requirements without NRE (minimum order placement is required).

AdvancedMC™

AMC 16 Channel Isolated Input Module

SPECIFICATIONS

Architecture		
Physical	Dimensions	Single-Width, Half-Height (with Mid or Full-Height options)
		Width: 2.89 in. (73.5 mm)
		Depth: 7.11 in. (180.6 mm)
Type	AMC Input	16 total inputs
		Eight TTL/CMOS channels
		Eight 0 to 10 volt channels
Standards		
AMC	Type	AMC.1
Module Management	IPMI	IPMI Version 2.0
PCIe	Lanes	x4
Configuration		
Power	AMC090	3.5W
		IPMI Controller < 30 mA @3.3V
Environmental	Temperature	Operating Temperature: 0° to 65° C (Air flow requirement is to be greater than 200 LFM)
		Storage Temperature: -40° to +90° C
	Vibration	1G, 5-500Hz each axis
	Shock	30Gs each axis
Front Panel	Relative Humidity	5 to 95 percent, non-condensing
	Interface Connectors	51-Pin Micro DIN style
	LEDs	IPMI Management Control
		Activity and Link
Mechanical	Hot Swap Ejector Handle	
Software Support	Operating Systems	Linux, Windows, Solaris and VxWorks
Other		
MTBF	MIL Spec 217-F > 238,000 Hrs.	
Certifications	Designed to meet FCC, CE and UL certifications where applicable	
Standards	VadaTech is certified to both the ISO9001:2000 and AS9100B:2004 standards	
Compliance	RoHS and NEBS	
Warranty	Two (2) years.	
Trademarks and Logos	The VadaTech logo is a registered trademark of VadaTech, Inc. Other registered trademarks are the property of their respective owners. AdvancedMC™ and the AdvancedTCA™ logo are trademarks of the PCI Industrial Computers Manufacturers Group. All rights reserved. Specification subject to change without notice.	
Notes	The Half-Height front panel is a patent-pending design. Contact your Sales representative for more information.

ORDERING OPTIONS

AMC090 - 00C - 000 - 0HJ

C = Front Panel

- 1 = Half-Height
- 2 = Mid-Height
- 3 = Full-Height

H = Operating Temp

- 0 = Commercial
- 1 = Industrial

J = Conformal Coating

- 0 = None
- 1 = Humiseal 1A33 Polyurethane
- 2 = Humiseal 1B31 Acrylic

Document No. 4FM430-05 Date: July 20 2007 Pass two
