

MEGAPAC L1

The MegaPAC L1 is a robust portable computer suitable for tough environments and mobile applications. With the 23", HD LCD display (optional upgrade: 23.8" 4K Display) and 7-expansion slots design, the MegaPAC L1 can easily fulfill requirement for digital media related applications in the broadcasting market. The MegaPAC L1 can also be configured with many special add-on cards for your unique applications. The integrated visor-shade optimizes viewing when ambient light or sunlight has become distracting. Optional touch screen allows MegaPAC L1 to operate without keyboard for quicker operations.

Large 23.8" Display

The MegaPAC comes with a 23.8" 16:9 LED backlite LCD at full HD resolution of 1920 x 1080 or higher. The integrated visor-shade and high contrast ratio optimizes viewing in ambient light. Overall, the large, wideview LCD with low latency, high contrast ratio, and visor-shade allow the user to see details that would have otherwise been overlooked.

Versatile Platform

In addition to its large display, every unit comes with cooling fans and easy access to its 7 full-length expansion slots for immediate system upgrade or maintenance.
